Schinznach Bad (pts)

Friday, June 14th 2024, 10:30 until 12:00, Polit-Forum, Marktgasse 67, 3011 Bern

Civil Society is living prove that Peace-Negotiations are possible with BOTH main conflict parties. Recently such negotiations took place in a respectful and fair manner, in neutrality, near Lucerne.

June 15th and 16th, the Swiss Government wants to hold the second so called peace conference within 6 Month. In January – before and during the annual meeting of the WEF in Davos – Russia was not invited. How shall a conflict be ended, if – again – Russia is not at the negotiations- table on Bürgenstock-Ressort? How shall the Swiss Government be reliable, if the cabinet of ministers support an economic war against the people of Russia (EU sanctions were immediately adopted by the Swiss Government in 2022), while illegal wars of Nato-States were never sanctioned by the Swiss cabinet?
